DON’T SETTLE. DON’T BLEND IN. BE UNAPOLOGETICALLY YOURSELF—AND DRIVE A VEHICLE THAT PERFECTLY REFLECTS YOUR SPIRIT. STEP INTO AN AUTHENTIC, RAW EXPERIENCE POWERED BY CUPRA DNA AND A PURE URBAN ESSENCE, EMBODIED IN DARING PROPORTIONS AND COLOURS. THE NEW CUPRA RAVAL IS MORE THAN JUST A CAR; IT’S A 100% ELECTRIC DESIGN, FULL OF LIFE—CRAFTED TO DELIVER THRILLING PERFORMANCE AND AN ALLURING, DYNAMIC DRIVING EXPERIENCE. THIS ISN’T ABOUT STAYING INSIDE THE BOX. IT’S NOT ABOUT PERFECTION. THE CUPRA RAVAL IS BUILT TO TURN HEADS—MADE FOR THOSE WHO TAKE RISKS, WHO OWN THEIR ATTITUDE, AND WHO LIVE AND BREATHE THE RHYTHM OF THE CITY.

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you.

BEAUTY

Beauty can be observed, experienced, sensed, and taken for a ride. Beauty isn't about staying inside the lines or chasing perfection. It's about taking risks, standing out, and owning your raw edge. Just like the new CUPRA Raval—a rebellious design with electric performance that injects dynamism into every ride. Not just in the city, but wherever the road takes you. A bold, emotionally charged aesthetic crafted with striking colours and sculpted lines on the outside, and cutting-edge technology within. Built to command attention, built to make a statement. The perfect fusion of sophistication and contrast.

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you.

EXTERIOR STYLING

CAPTIVATING VISUAL EXPERIENCE

The new CUPRA Raval dares to stand out—thanks to its bold TRI-LED feature. This distinctive headlight design amplifies the car's already striking presence, adding a layer of visual drama that's impossible to ignore. The MATRIX LED lights define the vehicle's audacious spirit and curated essence, with precision-crafted lines that speak of bold design and technical mastery. Take on the city streets and turn heads with a light signature that doesn't just illuminate—it captivates. A purely magnetic visual experience that elevates every drive.

SUBTLE BUT TRANSFORMATIVE

Built into the body, the flush door handle remain hidden when not in use, preserving the car's sculpted silhouette. They automatically deploy as you approach with the key—Physical or digital—or when you touch the surface, illuminating to welcome you with style and precision.

UNMATCHED AND UNFORGETTABLE DESIGN

Command the path with confidence. Equipped with the widest tyres in its category, the new CUPRA Raval exudes strength and stability from the ground up. Their bold dimensions not only enhance its sturdy stance but also elevate driving performance. Paired with a rebel, functional and sophisticated design, it delivers an unmatched driving experience—where power meets precision.

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you.

INTERIOR STYLING

ALWAYS IN COMMAND

A driver-first design with seamless technology. The 10.25" Digital Cockpit puts key information—such as maps and essential functions—clearly in view and within easy reach, keeping you focused on the road. It's complemented by a 12.9" operating system powered by Android™, offering a new ecosystem of apps such as HBO or Netflix. Stay focused, enjoy ergonomic comfort and dynamism, and personalise your drive without ever taking your hands off the wheel.

BEAUTY

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you.

SOPHISTICATION, DYNAMISM & COMFORT

The bucket seats blend uniqueness and sporty design with pure dynamism. They're electrically adjustable for both driver and passenger, with a memory function for added convenience. Crafted with sustainability in mind and finished with copper elements, they're an absolute win-win.

POWER

Power is electrifying performance, revolution, rebellion and daring to go outside the box with conviction. The new CUPRA Raval embodies all that. Driving it means embracing striking beauty, living and proudly celebrating every emotion during a journey, and exploring the innovation and advanced tech. Experience pure, raw and honest power with a car full of attitude and an alluring identity, built with precision to forge new paths and live new sensations.

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you.

ELECTRIFYING PERFORMANCE

The new CUPRA Raval brings a boost of power and top-tier performance to every ride.

AGILITY TAKES OVER

Dynamism at its fullest. The sporty throttle response of the new Raval Endurance[1] enhances agility, delivering more power, reaching up to 211 HP. Enjoy heightened dynamism and responsiveness during overtaking manoeuvres and active driving. Powered by a 52 kWh NMC battery—designed for performance and efficiency—it offers an approximate range of 440 km[2], fast charging capabilities, and excellent cold-weather behaviour.

POWER

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you.

ENGINEERED FOR PRECISION

Elevated and fast, the Raval VZ version showcases an ultimate dynamism and performance, reaching up to 226 HP and accelerating from 0–100 km/h in just 6.8 seconds. This optimised design delivers a more precise steering, enhanced stability, improved grip during curves and reduced weight. Overall, it's a practical yet sophisticated version, built for high performance with features like the DCC (Dynamic Chassis Control), the ESC OFF mode, which allows you to deactivate stability control, or the eLSD (Electronic Slip Limited Differential), to provide an enhanced grip.

[1] Century Bronze colour not available until August 2026.
[2] Range available only with Label A tyres.

CHARGING SOLUTIONS

POWER

TOP UP ANYTIME, ANYWHERE

Stop. Recharge. Keep the rebellion alive. Move in new ways, uncover hidden corners of the city, and challenge every rule on the go. Discover the CUPRA charging through the My CUPRA App to live every ride with passion. With a 52 kWh battery and fast charging up to 105 kW (DC), you're always ready to roll. Plus, the Vehicle to Load (V2L) function lets you power external devices directly from your car, turning it into a portable energy source.

PUBLIC CHARGING ACCESSIBILITY

Recharge your CUPRA Raval with ease through charging stations across urban hubs and suburban areas. With the My CUPRA app, you can control charging remotely, access real-time updates, and manage public chargers whenever you need them.

HOME CHARGING SOLUTIONS

CUPRA's home charging solutions bring effortless control right to your fingertips. Use the My CUPRA app to manage charging remotely, monitor your home charger, and keep your CUPRA Raval primed for every journey ahead.

CUPRA CHARGER 2

Charge your CUPRA Raval fast and seamlessly thanks to the CUPRA Charger Connect 2. This new Home Charging solution unlock the full potential of CUPRA Raval. It covers the maximum charging capacity and features smart functions that adapt to solar energy availability and electricity pricing—cutting costs by up to 40%.

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you.

INNOVATION

Break the mold. Challenge the status quo if your passion tells you so. Embrace change and don't be afraid to show what makes you unique. Just like our most radical take on the electric urban car: the new CUPRA Raval. A daring design, full of personality, crafted for those who refuse to blend in. The CUPRA Raval is the future of driving innovation—powered by cutting-edge technology and dynamic performance, so you can enjoy every second of the ride.

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you.

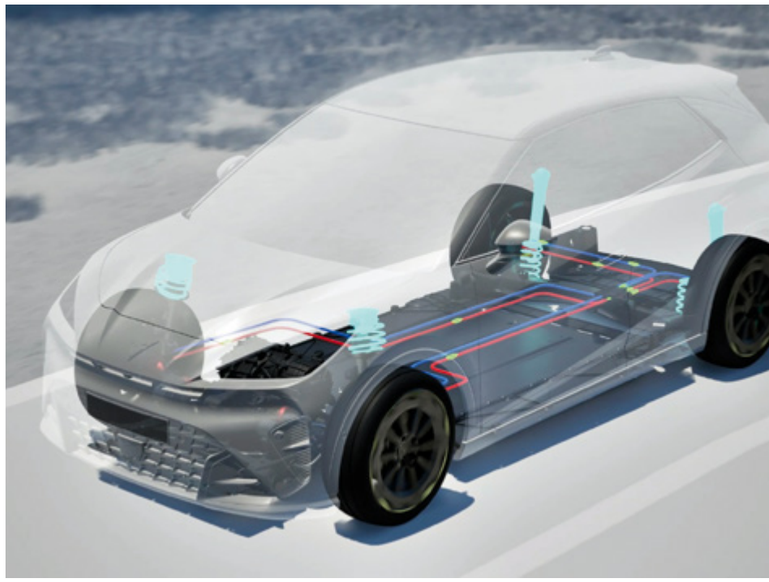
PERFORMANCE

LET THE MATRIX LEDS LEAD THE WAY

Matrix LED headlamps illuminate your path with advanced glare-free technology, keeping you and those around you safe.

PRECISION AND PERFORMANCE

This optimised design delivers more precise steering, greater stability, improved cornering grip, and reduced weight. It now incorporates sporty steering knuckles, engineered with a stiffer, lighter, performance oriented geometry to enhance responsiveness. It's a practical setup built for high performance, featuring systems like DCC (Dynamic Chassis Control), ESC OFF for stability control deactivation, and the eLSD (Electronic Limited Slip Differential) for superior grip.



LAUNCH CONTROL, PURE PRECISION

Experience the advanced Launch Control in your CUPRA Raval VZ, engineered to coordinate engine, traction, and transmission for instant, slip-free acceleration. Enhancing this feeling is the CUPRA Interior Sound, creating a sporty, immersive acoustic profile that amplifies the vehicle's dynamic character.

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you.

TECHNOLOGY

NEXT-LEVEL SENSORY ATMOSPHERE

With Smartlight Next Gen orchestrating the experience, every journey becomes a more vivid, sensory moment behind the wheel. Immerse yourself in an elevated in cabin atmosphere, shaped by refined interior details, dynamic ambient lighting, expressive door projections, and the rich clarity of Sennheiser immersive sound system.

NEXT GEN, 360° VISION

The new CUPRA Raval features an advanced, next generation, top view camera system with 4 strategically placed cameras. They create a real-time overhead view of your car and its surroundings—making parking, tight spaces, and obstacle detection easier and safer. It also incorporates the Smart Parking Solution, featuring IPA (Intelligent Park Assist) and RPA (Remote Park Assist), adding convenience and confidence to every manoeuvre.

POWER WHEREVER YOU NEED IT

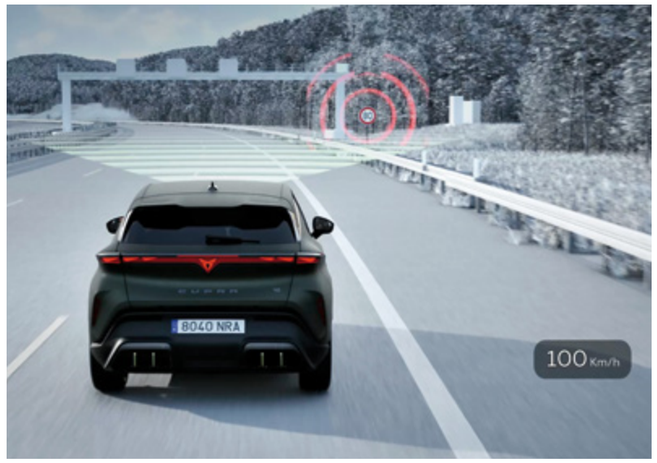
Plug in and power your devices —even small appliances—with the new CUPRA Raval. Equipped with the Vehicle to Load (V2L) system and Vehicle-to-Home (V2H) functionality, it features electrical sockets that turn your vehicle into a standard device voltage power source—at home or on the go. Keep your accessories charged and ready for anything, wherever the road takes you.

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you.

SAFETY

YOUR PERSONAL TRAVEL ASSISTANT

Experience peace of mind while driving your CUPRA Raval thanks to the Travel Assist. This driving system always has your back behind the wheel, as it enhances the overall safety and comfort on the road with features like the Traffic Jam Assist, the Lane Assist and the Predictive Adaptive Cruise Control.



YOUR NEW FAVOURITE COMPANION

Emergency Assist steps in when you're unable to. The new CUPRA Raval is packed with safety features, thanks to a built-in kit that includes a tiredness recognition solution, Front and Rear Assist, and a smart safety feature that monitors your activity. If it detects no response, takes control and alerts others, takes you to the roadside and unlocks the doors. A true safety net on wheels.

SMART ALERTS FOR SAFER MOVES

Discover advanced assistance systems that monitor blind spots, rear traffic, and door-side exits—warning you of approaching vehicles, cyclists, or pedestrians to help prevent collisions when changing lanes, reversing, or opening a door.

ANTI-THEFT PROTECTION. TOTAL PEACE ON MIND

Stay protected with a smart security setup that detects break-ins, interior movement, unauthorized towing, and reinforces warnings with a backup horn—always keeping you and your vehicle safe.

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you.

UPGRADES

EDGE

The EDGE system delivers a seamless 360° urban driving experience, thanks to features like illuminated flush door handles, anti-theft alarm, rear view camera, Front Park Distance Control, and Vehicle to Load. Also, you can unlock and start your car with just your phone—thanks to the advanced Mobile Digital Key.

DRIVE

From stress-free parking to full visibility, advanced assist systems like Intelligent Park Assist, Remote Park Assist, and Top View Camera make every manoeuvre effortless for you—All these features are part of a pack that also includes Travel Assist 3.0, Exit Warning.

LIGHT & SOUND

Live a fully Immersive experience thanks to dynamic ambient lighting and the dynamic door projections, rich Sennheiser immersive sound system and refined interior details. These features transform every drive into a sensory experience—led by Smartlight Next Gen and designed to elevate every moment on the road.

REBEL PLUS[1]

This vibrant setup is elevated by Matrix LED lamps with lighting ceremonies, dynamic door projections, All-Weather function, and Light Assist. Comfort is further enhanced with power seat adjustment for both front seats, including a driver memory feature, delivering a refined and confident driving experience.

[1] Only availbale for VZ.

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you.

UPGRADES

EXTERIOR LIGHT

Light your way without dazzling other drivers. The Exterior Light system includes features such as the Light Assist, which automatically detects ambient light and traffic conditions using a front camera to switch the lights on or off accordingly. It works in tandem with the Matrix LED to dim the light beam when other vehicles are nearby, ensuring safer and more considerate driving.

PANORAMIC SUNROOF

Bathe in the sun with the new CUPRA Raval's Panoramic Sunroof paired with an electrically adjustable interior sunblind that lets you set the level of openness. Let the light in, feel the vibe of a sophisticated, free design and own every ride.

WINTER PACK

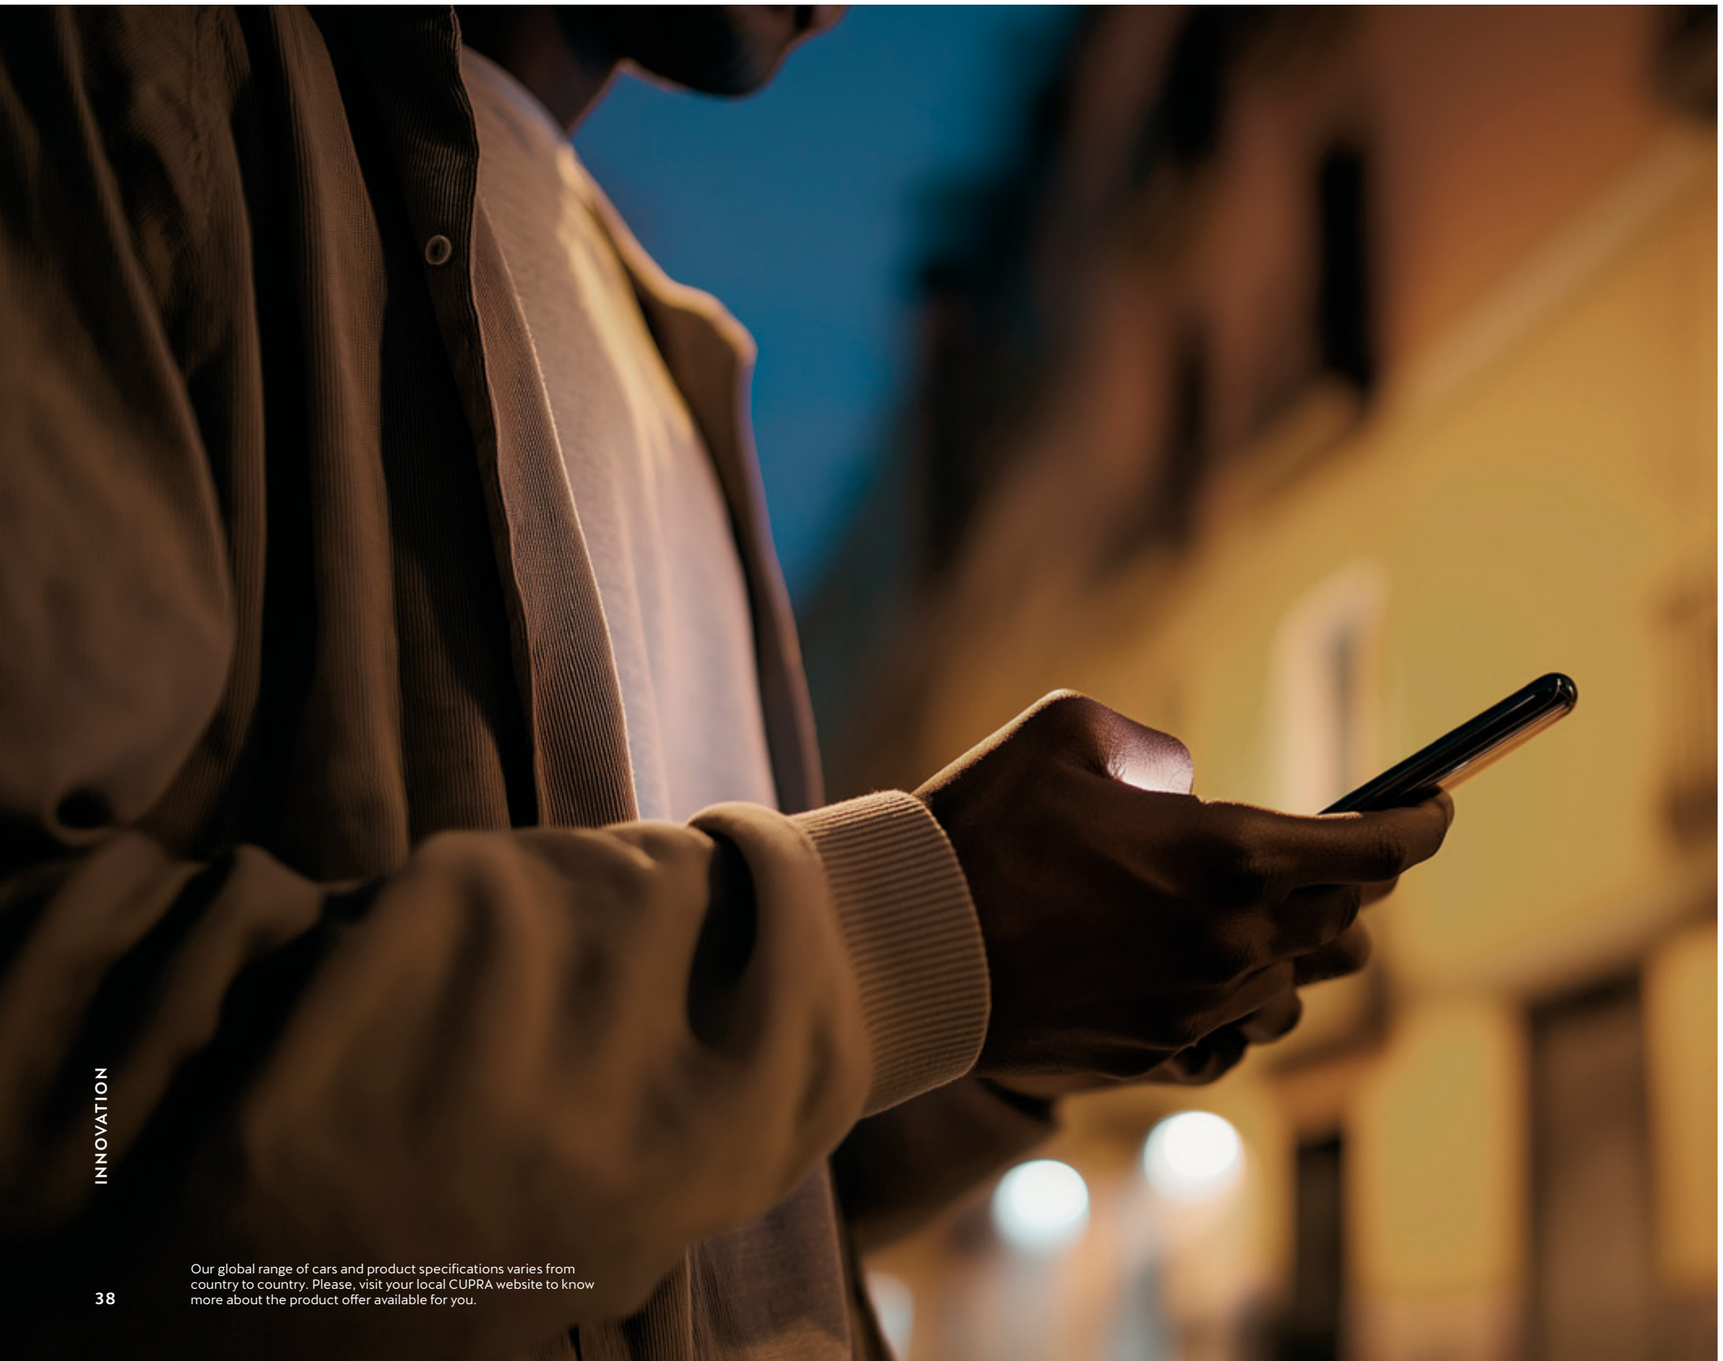
The Winter Pack features a heat pump, front heated seats with individual control for both the driver and the passenger, and a heated steering wheel to warm your hands. Pure comfort made for colder days.

TOWING HOOK

Pack it all in — bikes, bags, surfboards… you name it. Check out the towing hook for CUPRA Raval, designed to be resistant, functional, and versatile. Whether you're heading out for a weekend adventure or tackling a challenging journey, it can handle it all: up to 1,200 kg with 52 kWh battery and 500 kg with 37 kWh, making it the reliable companion your car can count on for anything.

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you.

CUPRA CONNECT



Enjoy advanced navigation and seamless content access on the road with My CUPRA App. Benefit from remote connectivity and enhanced security—making every ride in your CUPRA Raval smarter and safer.

MY CUPRA APP

Use the My CUPRA App to stay connected to your CUPRA Raval. Remotely check the status of your doors, windows, and lights, lock or unlock your car, track its location, or book service appointments—all from your phone.

DRIVE SMART

Your CUPRA's infotainment system is your digital hub, built on an advanced operating system with a new powered store ecosystem. It keeps you connected, informed, entertained, and in control of key functions. Enjoy an intuitive touchscreen with smart routing, safety alerts, voice control and seamless software updates. Access your favourite apps through the CUPRA Apps Store, use the My CUPRA Apple Carplay™ with Full Link, and turn your smartphone into CUPRA Mobile Digital Key to unlock, start and lock your car.

CUPRA MOBILE DIGITAL KEY

Your smartphone can now function as a Mobile Digital Key: unlock the car as you approach, lock it as you walk away, start the engine, and share access securely. Manage your Mobile Digital Key through your phone wallet after activating it via the My CUPRA App. The package also includes a Smart Card to temporarily grant access to someone else.

MY CUPRA IN APPLE CAR PLAY

Enjoy infotainment functions within Apple CarPlay™, with quick and easy access. Designed for users who use Apple CarPlay™ as their main interface, it offers a personalised environment with effortless control of audio, temperature and lighting, as well as access to your contacts, key driving information and much more. Activate everything quickly through the My CUPRA App.

CUPRA APPS STORE

Get a selection of in-car applications directly on your infotainment display and enjoy a truly curated connected-driving experience. Enjoy effortless connectivity with ready-to-use apps, convenient charging, a personalized interface tailored to your preferences, and plenty of entertainment and information services on the go.

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you.

LEISURE

Discover a curated selection of accessories specially designed for the CUPRA Raval and experience leisure in full swing. Every journey becomes an opportunity to feel new emotions and create perfect memories. Take the wheel and drive — while taking care of every detail.

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you.

ACCESSORIES

The front and rear mudflaps add an outstanding protection, keeping the dirt and debris away from your Raval in every adventure.

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you.

CUPRA e-CARE*

Our exclusive e-CARE packages have your back on every ride —optimizing performance, protecting your car, and helping you create thrilling adventures. With tailored support that keeps your CUPRA Raval in top conditions, you can follow your passions worry-free, while enjoying a bold yet reliable drive.

SMALL PACKAGE

Small but mighty. This package is perfect for those who want to keep their CUPRA Raval in top conditions but seek an essential servicing.

MEDIUM PACKAGE

Whether you're an avid explorer or a frequent long-distance driver, this package delivers everything from essential coverage to extended warranty and roadside assistance to keep you moving confidently.

LARGE PACKAGE

Enjoy an even greater level of peace of mind with the Large package—featuring Tyre Replacement, Full Maintenance, and Insurance, plus the Small and Medium benefits.

WARRANTY EXTENSION. EXTRA PEACE OF MIND

Extend your peace of mind with this warranty extension—adding 3 more years or up to 100,000 km of coverage for your CUPRA Raval.

CUPRA ROADSIDE ASSISTANCE

Enjoy 2 years of free, complete assistance for your CUPRA Raval. Anytime, anywhere. In the EU and beyond.

SUPPORT THAT NEVES SLEEPS

Drive peacefully with complete CUPRA Insurance. Get courtesy cars for major incidents, 24-hour support and reliable repair services.

* e-CARE services may differ according to market.

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you.

ENVIRONMENTAL INFORMATION

DRIVE PROFILE

This allows the customer to choose between different driving profiles that will change vehicle's behaviour. One of these profiles is the RANGE, which, among other actions, adjusts the climate control and changes the propulsion parameters to reduce energy consumption.

EXTEND BATTERY LIFE

By limiting the maximum SOC% (State of charge) of the high voltage battery to 80%. This function prevents the vehicle from being parked with a high charge level, thereby reducing battery degradation, maximum range and extending battery life.

Post-climatization: extends the battery life by regulating its temperature below 38°C, if the charging level is above 80% for better storage.

LIGHTING

Headlamps and rear lamps are 100% LED, increasing life service by up to 10 times. For headlamps, the luminous flux effectiveness is increased at least 30% in comparison to a halogen lamp.

RECYCLED MATERIALS

Carpets contain a minimum of 43% recycled nylon ECONYL® yarn (nylon from discarded fishing nets and textile fibers from disposed carpets).

Seats Ahead configuration: The CUP bucket seats with full 3D-knitted upholstery are made from 100% recycled material.

3DKnitting technology results in a 100% waste reduction, as the exact same material is used for the part to be produced.

Seat Pulse configuration: the fabrics in the central part of the front and rear lateral seats area contain 100% recycled material.

Seat Immersive configuration: the fabrics in the back rest part and head rest seats areas contain 73% Dinamica®. The central area of rear lateral seats contains 100% recycled material.

Seat Feel configuration: the fabrics in head rest parts and central parts of the front seats as well as the central parts of the rear lateral seats contain at least 36% recycled material.

ECO-ASSIST

While driving manually with Comfort or Range driving profiles, when a foreseen event or a moving object ahead is detected, the ECO-Assist function enhances efficiency and comfort during deceleration by continuously determining the ideal coasting and/or automatic energy recuperation strategy. In certain situations, the function provides the driver with a visual event indication to lift their foot off the accelerator pedal, and if the driver reacts, the function takes over the anticipated deceleration based on the distance to the event. Driving with ECO-Assist function active saves energy and increases range.

SEAT S.A.'s environmental mission.
Protect Climate. Conserve Resources. Preserve Ecosystems. Ensure Environmental Compliance.

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you.

TECHNICALS

Discover the soul of precision engineering and pure CUPRA DNA. Each technical specification reveals our obsession with detail —from hybrid efficiency and raw presence to electrified power that flows effortlessly with the road. The exhilarating CUPRA Raval performance transcends numbers. It’s a fusion of innovation and emotion, where electric energy meets conscious, rebellious, and urban design. Every element is purposefully crafted to amplify your drive and awaken your spirit.

ENGINE SPECS

GENERAL INFORMATION

	BATTERY 38.5 KWH 133 PS (HP) - 99 KW
Acceleration (0-50 km/h)	3.5
Acceleration (0-100 km/h)	9.5
Maximum power (kW/HP)	99 kW (133 HP)
Electric range max-min (km)	328 - 305

DRIVETRAIN

Max torque (Nm)	264

[1] Estimated value considering a charge between 10% and 80% using a 88 kW DC for the 37 kWh battery package. The charging time of your vehicle may vary due to multiple factors, including but not limited to weather conditions, the age, and the condition of the battery. Accordingly, the charging time provided should not be interpreted as an exact measurement, but rather as a general estimate. This information is for guidance purposes only and does not constitute a guarantee of charging performance.

* The accurate range for your vehicle will vary according to a number of different factors which include the route, weather conditions, vehicle load (occupants + luggage), battery age and condition, optional equipment (alloys, tyres, etc.), the use of peripheral energy consumption systems such as heating, air conditioning and heated seats, as well as your driving style. The indicated range has been calculated in compliance with the WLTP standards, which set out test conditions applicable to all car manufacturers to ensure the comparability of these tests for all vehicles.

** The technical data displayed are merely indicative and may vary. The available power (KW) and acceleration of the vehicle depends on the battery charge level and its temperature at all times. The pictures are used for illustrative and informational purposes only and may not correspond to the series production.

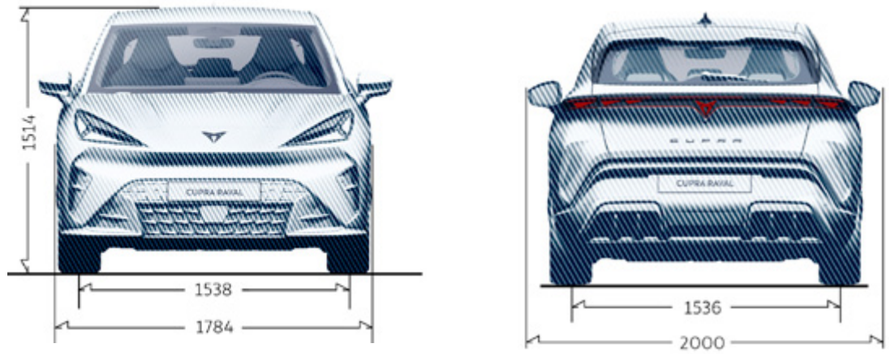
BATTERY

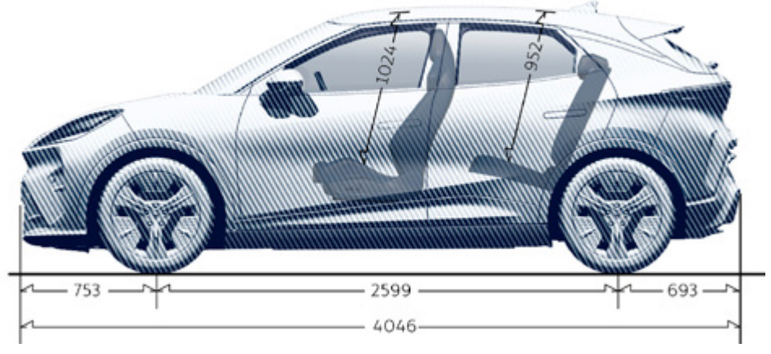
	BATTERY 38.5 KWH 133 PS (HP) - 99 KW
Battery type	BATTYPV105
Battery capacity (kWh)	37 kWh / 38.5 kWh
Battery voltage	327 V
Charging time (AC 7 kW)	-
Charging time (AC 11 kW)	4h
Charging time (DC 50 kW)	-
Charging time (DC 88 kW) [1]	0:23
Charging time (DC 105 kW)	-
Charging time (DC 120 kW)	-
Charging time (DC 165 kW)	-
Charging time (DC 175 kW)	Not apply
Charging time (DC 183 kW)	Not apply
Charging time 100km range/100 kW	-
Charging time 100km range/170 kW	-

ELECTRIC CONSUMPTION

Electric consumption combined WLTP (kWh/100 km)	13.8 - 15
Combined range WLTP max-min (km)	328 - 305
CO_2-Emissions (g/km)	0

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you.





CHASSIS

	BATTERY 38.5 KWH 133 PS (HP) - 99 KW
Front suspension	Independent type McPherson - coil springs - hydraulic shock absorber DCC equipment (Adaptive chassis control)
Rear suspension	Semirigid axle - coil springs - hydraulic shock absorber DCC equipment (Adaptive chassis control)

STEERING

Steering system	R-EPS (Rack Electric Power System); Progressive steering
Turning Circle Diameter (m)	10.9m

BRAKES

	BATTERY 38.5 KWH 133 PS (HP) - 99 KW
Brake system	One Box (ESC + Brake Booster)
Front/Rear brakes type	Front ventilated disc brakes and rear solid disc brakes
Front disc brakes (mm)	306×26
Rear disc brakes (mm)	300×12

WEIGHTS

Length (mm)	4046
Width (mm)	1784
Height (mm)	1514
Boot capacity (litres)	441 L
Weight (Kg)	1610
Seats	5

ENGINE SPECS

GENERAL INFORMATION

	BATTERY 52 KWH 211 PS (HP) - 155 KW	BATTERY 52 KWH 226 PS (HP)[1] - 166 KW
Acceleration (0-50 km/h)	3.1	3.1
Acceleration (0-100 km/h)	7.1	6.8
Maximum power (kW/HP)	155 kW (211 HP)	166 kW (226 HP)
Electric range max-min (km)	446-413	440[2]-379

DRIVETRAIN

Max torque (Nm)	290	290

[1] Please note that VZ (52 kW) will be available from week 20/26.
[2] Range available only with Label A tyres.
[3] Estimated value considering a charge between 10% and 80% using a 105 kW DC for the 52 kWh battery package. The charging time of your vehicle may vary due to multiple factors, including but not limited to weather conditions, the age, and the condition of the battery. Accordingly, the charging time provided should not be interpreted as an exact measurement, but rather as a general estimate. This information is for guidance purposes only and does not constitute a guarantee of charging performance.
